N2	9500	120000	2000 (6950*)
N3	21000	200000	2000 (8250*)
N4	21000	200000	2000 (10750*)

** For v10.8 onwards, standard versions are constrained to 2000 zones, full versions are available upon request for no extra charge*

ATKINS

Educational Versions

We are able to offer substantial discounts for education versions – these are available to academic institutions provided that the software is for educational and research use only and cannot be used for commercial purposes. Contact me for further details.

Upgrades

Maintained users holding a licence for a specific level of SATURN and subsequently wishing to upgrade to a higher level may do so at a cost equivalent to the price difference between levels (currently £1,150 per level) plus an upgrade fee of £350. For example, an upgrade of three levels from Level 'B' to level 'H' would cost a total of £3600 = £3450 + £350. Contact me for further details.

Campus-Based Maintenance Agreements

SATURN Maintenance is provided through campus-based maintenance agreements. The maintenance structure permits unlimited number of users within each campus¹ but requires additional maintenance payments for other campuses as shown below.

Number of Campus Sites ¹	Maintenance Charge as % of Current Purchase Price
1	15%
2	23%
3	26%
4	28%
Unlimited	30%

¹ A campus site consists of a registered office where SATURN is being used plus any satellite office(s) within a defined distance. Any other office(s) located within 15km radius of the registered office (or within the M25 motorway around London) are included within the same campus site. All offices where SATURN is in use need to be registered for maintenance and allocated to a campus site.

Annual Maintenance		
Single Campus Site charged @ 15% of List Price		
Version	UK-based*	Outside UK
B	£1,980.00	£2,100.00
